### SUMMARY

---

Intuitive data junkie, resilient project juggler & proven team leader with 8+ years of experience in a leadership role in retail & eCommerce distribution (North America) for a high growth apparel retailer. Recently graduated BrainStation's Data Science Diploma program where I leveled up my data literacy skills and currently seeking a career change as a Data Analyst.

### PROJECTS

---

#### Brainstation Capstone Project

- ❑ I was interested in building a supervised machine learning model which will classify a twitter account a bot or a human.
- ❑ **Technology stack:** Python, Tweepy, Bokeh, SHAP

### SKILLS

---

SQL, Python, AWS Cloud Practitioner, Excel, Data Visualization, Tableau, Microsoft B.I., Critical Thinking, Communications Skills, Leadership, ERP & Business Knowledge, Unstructured Data, Data Preparation, Probability & Statistics, Machine Learning, Web Scraping, Data APIs, Version Control

### EDUCATION

---

#### BrainStation

Diploma Data Science 2020

Immersive, project-based learning experience, designed to transform your skillset and launch a new career in data.

#### University of British Columbia

Diploma Urban Land Economics 2011

Foundation in real property law, economics, financial math, statistics, and valuation.

### EMPLOYMENT

---

#### **lululemon athletica**, *Operations Manager*, Delta, British Columbia

2016 - 2019

- ❑ I oversaw all outbound warehouse operations as it pertains to inventory integrity, order fulfillment, shipping, staffing, financial operating plans, procuring and vendor management. Reported weekly performance to SVP.
- ❑ I led a diverse team of 55+ Warehouse Associates, Team Leads, Data Administrators and Drivers.
- ❑ During my time in a leadership role, we grew from shipping to 10 - 60 retail stores and 0 to 2.75 million annual eCommerce orders.
- ❑ Project Track Lead for cross border shipping implementation (2019).
- ❑ Planned & executed conversion of warehouse management system. (2018).
- ❑ Planned & executed distribution center facility move which included over 2 million units. (2017).

#### *Warehouse Team Lead*, Burnaby, British Columbia

2011 - 2016

- ❑ Energized my team as well as supporting my people with daily responsibilities like picking, packing, processing and shipping inventory.

### ACTIVITIES

---

#### **Data Scientist in Python**, *Dataquest.io*

2020

240 hour MOOC covering python fundamentals, R, relational databases & SQL, data analysis, data visualization, statistics, git & machine learning models.

#### **Business Foundations Specialization**, *Wharton School of Business*

2019

5 business course certificate program culminating with a capstone project where I and 3 cohorts presented a mobile application feature to members of the lululemon executive leadership team.

#### **Intro to Software Development**, *British Columbia Institute of Technology*

2018

Intensive introduction to OOP concepts. Classes, objects and their relationship, primitive data types, constructors, methods, repetition and selection, collections, abstraction and modularization.

#### **Relational Database Design & SQL**, *British Columbia Institute of Technology*

2017

Intensive introduction to relational database design concepts. Functional dependencies, normalization, database design methodologies, entity relationship modeling, UML, DML, views, security, transaction management, triggers and stored procedures.
